IMMUNE BOOSTER PRO

Bovine Colostrum Capsule

Bovine Colostrum Is Made From The Milky Fluid A Cow Secretes After Giving Birth. It May Help Improve Immunity, Fight Germs, And Promote Gut Health.

 Bovine Colostrum Is Similar To Human Colostrum — Rich In Vitamins, Minerals, Fats, Carbohydrates, Disease-fighting Proteins, Growth Hormones, And Digestive Enzymes

 The Immune-boosting Effects Of Colostrum Are Mostly Due To Its High Concentration Of The Antibodies IGA And IGG. Antibodies Are Proteins That Fight Infection Viruses And Bacteria

 Colostrum Promotes Growth And Health In Infants And Newborn Animals, But Research Shows That Taking Bovine Colostrum Supplements May Promote Immunity, Help Fight Infections, And Improve Gut Health Throughout Life.

Supports Immune System - Bovine colostrum is known for its high concentration of antibodies, which may help boost the immune system and fight against infections. Colostrum is rich in immunoglobulins, particularly IgG, which are antibodies that play a crucial role in recognizing and neutralizing pathogens like bacteria and viruses.

Promotes Joint Health - Colostrum contains various proteins, including collagen, that are important for the structure and strength of connective tissues, such as those found in joints. This can contribute to joint stability and flexibility. Also, the immune-modulating components in colostrum may play a role in regulating the immune response in joints.

Anti-Inflammatory Properties - Colostrum contains anti-inflammatory compounds, including cytokines and growth factors, which may help reduce inflammation in body. Chronic inflammation is often associated with joint pain and discomfort.

Improves Gut Health - Bovine Colostrum capsules contain immunoglobulins, lactoferrin, and other compounds that could contribute to a healthy digestive system by promoting the growth of beneficial gut bacteria. The prebiotic components in colostrum serve as a source of nourishment for beneficial gut bacteria. Supporting the growth of these beneficial microbes helps maintain a healthy balance in the gut microbiome and building blocks for the maintenance of intestinal tissues.

Helps in Wound Healing - The growth factors in colostrum may support the regeneration and repair of various tissues in the body. This can be beneficial for the restoration of damaged cells in organs, muscles, and other tissues.

IMMUNE ENERGY PRO

24 Powerful Ingredients capsule

24 POWERFUL INGREDIENTS:
